Are you the parent/carer of a child or young person with a visual impairment? Would you like to meet with a range of people who will be able to guide you through the range of support and services available?

Come and visit staff from NNAB YoungEyes, Norfolk Local Offer and Virtual School Sensory Support for a coffee, cake and informal discussion about what is available. There is also the chance to visit the Equipment and Information Centre to look at a range of gadgets to assist people with a vision loss.
